INTRODUCTION

Welcome to the 2019 Educational Workshop series jointly hosted by the British Society for Antimicrobial Chemotherapy (BSAC), Healthcare Infection Society (HIS), British Infection Association (BIA) and Infection Prevention Society (IPS). The topic this year is The partnership of AMS & IPC – Stewarding new antimicrobials & IPC practices.

Through plenary lectures, case presentations and workshop discussion, delegates will hear about the latest developments and have the opportunity to share and discuss common and rare issues faced in every day practice.

The workshops are open to microbiologists, infectious diseases physicians, pharmacists, nurses, scientists and other healthcare professionals working in the areas of infection prevention, diagnosis and treatment. Early booking is recommended as places are strictly limited at each venue.

We look forward to welcoming you at your local event.
